Dengan kuasa kun fayakun, Allah mampu mengubah setetes cairan menjadi makhluk yang bernyawa. Tidak pernah berhenti memikirkan luasnya ilmu Allah yang apabila pohon-pohon itu adalah pena dan air lautan menjadi tintanya, maka tidak akan pernah mampu menuliskan ilmu Allah. Pertemuan antara sel sperma Ayah dengan sel telur Ibu menentukan sebuah kehidupan baru bagi satu nyawa yang akan menginap selama 9 bulan dalam rahim, hingga pada suatu ketika dunia akan mengucapkan selamat datang padanya. Kewajiban orangtua adalah memberikan nama yang baik untuk anak, sedangkan hak anak adalah mendapatkan nama yang baik dari orangtuanya. Etika pemberian nama bayi di antaranya adalah memberi nama dengan nama penghambaan kepada Allah, yaitu dengan nama yang indah (Asma'ul Husna), memberi nama dengan nama-nama nabi, memberi nama dengan nama-nama orang saleh dari kalangan kaum Muslimin.

This booklet describes, in a non-technical manner, some important aspects of the Code of Conduct for Responsible Fisheries. The purpose is to create greater awareness of the goals and purpose of the Code and to encourage its effective application in all capture fisheries and in aquaculture. This booklet does not replace the Code of Conduct but simply presents some of the complex information contained within the Code in a simplified form in an attempt to make it more accessible to all users of fisheries.

This is the first study to examine in detail ritual objects known as 'Lamak', a fascinating and unique form of ephemeral material culture which is a prominent feature of Balinese creativity.

Biographical sketches of 100 prominent women in science in Indonesia.

This new edition of a highly regarded classic midwifery text encourages critical thinking about the art and science of midwifery. Promoting the idea that thinking directly affects practice, it offers a clear explanation of the concepts, theories and models that shape effective evidence-informed care for women. This insightful book challenges the reader to reconsider the knowledge at the heart of your own midwifery practice. It is the essential text on midwifery's growing theoretical framework for students and practitioners alike. New to this Edition: - Extensively updated and reworked edited collection - New exercises: undergraduate and postgraduate specific activities highlight the significance of the theoretical framework to everyday practice

Known as the 'Bible' of midwifery, this new edition of Varney's Midwifery has been extensively revised and updated to reflect the full scope of current midwifery practice in a balance of art and science, a blend of spirituality and evidence-based care, and a commitment to being with women.

This year's 'Word Development Report', the twenty-eighth, looks at the role of equity in the development process. It defines equity in terms of two basic principles. The first is equal opportunities: that a person's chances in life should be determined by his or her talents and efforts, rather than by pre-determined circumstances such as race, gender, social or family background. The second principle is the avoidance of extreme deprivation in outcomes, particularly in health, education and consumption levels. This principle thus includes the objective of poverty reduction. The report's main message is that, in the long run, the pursuit of equity and the pursuit of economic prosperity are complementary. In addition to detailed chapters exploring these and related issues, the Report contains selected data from the 'World Development Indicators 2005'--an appendix of economic and social data for over 200 countries. This Report offers practical insights for policymakers, executives, scholars, and all those with an interest in economic development.

This book is the first of a new series which will present the proceedings of the newly established Nestlé Nutrition Workshop Series: Clinical & Performance Programme aimed at adult nutrition. Undernutrition is a common phenomenon in elderly people, and malnutrition reaches significant levels in those being in hospital, nursing homes or home care programs. Consequences of malnutrition often go unrecognised owing to the lack of specific validated instruments to assess nutritional status in frail elderly persons. The Mini Nutritional Assessment (MNA) provides a single, rapid assessment of nutritional status in the elderly of different degrees of independence, allowing the prevalence of protein-energy malnutrition to be determined and to evaluate the efficacy of nutritional intervention and strategies. Easy, quick and economical to perform, it enables staff to check the nutritional status of elderly people when they enter hospitals or institutions and to monitor changes occurring during their stay. Moreover, the MNA is predictive of the cost of care and length of stay in hospital. This publication will be of immense assistance to heads of geriatric teaching units, teachers in nutrition, clinicians general practitioners and dieticians, enabling them to better detect, recognise and start treatment of malnutrition in the elderly.

Arguing that birth order plays a powerful role in shaping one's beliefs, careers, and choice of marital partner, explains how to tap birth-order insights to understand personal tendencies and overcome self-limiting obstacles.
