Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Students of all levels need to know how to write a well-reasoned, coherent research paper—and for decades Kate L. Turabian ' s Student ' s Guide to Writing College Papers has helped them to develop this critical skill. For its fifth edition, Chicago has reconceived and renewed this classic work for today ' s generation. Addressing the same range of topics as Turabian ' s A Manual for Writers of Research Papers, Theses, and Dissertations but for beginning writers and researchers, this guide introduces students to the art of formulating an effective argument, conducting high-quality research with limited resources, and writing an engaging class paper. This new edition includes fresh examples of research topics, clarified terminology, more illustrations, and new information about using online sources and citation software. It features updated citation guidelines for Chicago, MLA, and APA styles, aligning with the latest editions of these popular style manuals. It emphasizes argument, research, and writing as extensions of activities that students already do in their everyday lives. It also includes a more expansive view of what the end product of research might be, showing that knowledge can be presented in more ways than on a printed page. Friendly and authoritative, the fifth edition of Student ' s Guide to Writing College Papers combines decades of expert advice with new revisions based on feedback from students and teachers. Time-tested and teacher-approved, this book will prepare students to be better critical thinkers and help them develop a sense of inquiry that will serve them well beyond the classroom.

Is this the year you are finally going to share your message with the world? Don't let the idea of having to write a book hold you back. It's easier than you think, and you don't even have to actually write the book yourself... Never thought about writing a book? Maybe you should consider it! Publishing a book will give you expert status, help spread your message and increase sales of your other products and services. It may even kick-start or boost your public speaking career. Writing, publishing and promoting a book has never been easier. You can do it in a week. This guide will teach you: The best kept secrets to a quick start for writing, promotion and sales Smart writing process hacks Alternatives to writing the book yourself Self-publishing The keys to launching a successful book, superfast "I just published my book. What I haven't been able to achieve in the past three years I did in just 7 days!" Chris About the authors Esther Jacobs (The Netherlands, 1970) is an international (TEDx) speaker and author. Esther has given over 1000 keynotes and is (co)author of 21 books. Her workshops have helped over 400 entrepreneurs to write their book. The NO EXCUSES LADY helps leaders and entrepreneurs to transform their challenges into opportunities. Marie Stern (Germany, 1982) is an "Amazon Self-Publishing Ninja." She authored 7 bestselling Amazon books, even though she wasn't even good at writing in school. However, she spent many hours browsing and reading in bookstores, discovering the secret behind successful books. As a former data mining analyst, she knows how important research is and how to find structure in any process. Marie helped many non-writers have their book written and likes to share her best knowledge on how to self-publishing and sell books. Esther and Marie met at a conference, where they were giving a book writing workshop. They decided to write this book in just one day, using their own tested method. And now they're inviting you to try it, too!

In high school, everyone's talking about college. What to do. Where to go. Why it's important. Classes are given on it. Books are written about it. But details get left out. Every year, college graduates learn this the hard way as they step into adulthood. I was one of them. After earning a four-year degree, I went through two of the worst years of my life. Not that my situation is unique. I am a part of a generation that was told to go to college first and sort out the details later. Most of us did. We chased the promise of a big shiny future, and we ended up being chased by the mistakes of our past. That's not to say we completely regretted going. This book isn't a list of privileged millennial complaints. It's a collection of wisdom gained in less than pleasant ways. It's a story of hardship, failure, victory, and perseverance. It's all of the things we wish someone had told us. And it takes place before college, in college, after college, and without college. This is the wild, painful, awkward, hilarious, depressing, & beautiful journey from youth to maturity. This is the college book that no one ever gave us.

Today ' s students are tomorrow ' s leaders, and the college years are a critical period for their development of ethical standards. Cheating in College explores how and why students cheat and what policies, practices, and participation may be useful in promoting academic integrity and reducing cheating. The authors investigate trends over time, including internet-based cheating. They consider personal and situational explanations, such as the culture of groups in which dishonesty is more common (such as business majors) and social settings that support cheating (such as fraternities and sororities). Faculty and administrators are increasing their efforts to promote academic honesty among students. Orientation and training sessions, information on college and university websites, student handbooks that describe codes of conduct, honor codes, and course syllabi all define cheating and establish the consequences. Based on the authors ' multiyear, multisite surveys, Cheating in College quantifies and analyzes student cheating to demonstrate why academic integrity is important and to describe the cultural efforts that are effective in restoring it. -- Gary Pavela, Syracuse University

E-LEARNING COMPANION serves as a resource and quick-reference guide for any course that demands technology skills. In addition to helping students adapt previously mastered skills--such as time management, note-taking, and critical thinking--to the online environment, this text shows students how social networking, cloud file storage, wikis, and blogs can be utilized appropriately and effectively in a college course. Technical terminology and how-to tutorials help students become more capable and flexible online learners, and build skills that will support them throughout college and their future careers. The Fourth Edition is fully updated to be current and relevant for today's online learning environments, and also includes new Workplace Applications, and coverage of professional behavior and professional emails. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This is a memoir presented in an anthropological - like format; in other words, a collection of short stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.
