"A Member of the International Code Family."

Benita: An African Romance (alternatively titled The Spirit of Bambatse) is a novel by H. Rider Haggard.

Drawing inspiration from over 1200 years of history, this book provides a collection of 75 embroideries alongside sketches from the author's workbook. It includes full instructions for all techniques and stitches.

Popular Poultry Breeds examines forty mainstream breeds of chickens and bantams divided into thirty-five chapters. Most breeds exist in several plumage colour varieties, and in large and bantam (miniature) size versions, all of which are also included in this comprehensive book. Detailed histories of each breed are given, in many cases including the names of the breeders and where they lived. Also, the special management and selective breeding requirements needed for certain breeds is studied, even if they are not going to be entered into shows. The book includes helpful descriptions of the breeds, and is beautifully illustrated in full colour with over 180 photographs of prize-winning birds and nearly ninety reproductions of exquisite old prints of artist's drawings. This painstakingly researched reference work is aimed at smallholders, hobbyist poultry keepers, serious enthusiasts and those researching chicken breeds.

The 2000 International Residential Code? brings uniformity to the construction of one- and two-family dwellings and townhouses. A comprehensive code for building design, this book brings together all building, plumbing, mechanical, and fuel gas provisions. It establishes minimum regulations using prescriptive provisions, and is founded on broad-based principles that make possible the use of materials and building designs.

British Poultry Standards 6th edition is the official reference to all the recognised Poultry Standards in Great Britain. It contains complete specifications together with judging points for all standardised breeds and varieties, as compiled by the specialist Breed Clubs and recognised by the Poultry Club of Great Britain. Breeding and exhibiting poultry is a long-held tradition as well as a popular and rewarding hobby. The work of the Breed Clubs and the many dedicated breeders in preserving the pure breeds is vital in maintaining our breeds of poultry not only for the cultural heritage of future generations but also as a gene bank for the commercial world. Under the guardianship of the Poultry Club of Great Britain, this book details the authorised standards of excellence for each breed. New to this edition: • New and improved colour images for many breeds, now with almost 300 colour photographs. • The inclusion of silhouettes to show the perfect shape for each breed. • An additional 14 breeds are covered.

"The need to preserve farm animal diversity is increasingly urgent, says the author of this definitive book on endangered breeds of livestock and poultry. Farmyard animals may hold critical keys for our survival, Jan Dohner warns, and with each extinction, genetic traits of potentially vital importance to our agricultural future or to medical progress are forever lost."--BOOK JACKET.
