~~What is party identification? - Answers~~

Such partisan loyalties exist as a central part of an individual's belief system, acting as a political cue for other attitudes and behaviors. These researchers described these partisan attachments as a sense of party identification (PID): a long-term, affective, psychological identification with one's preferred political party. Social identity theory argues that these partisan ties are similar to identifications with a social class, religious denomination, or other social group.

Party identification refers to the political party with which an individual identifies. Party identification is affiliation with a political party. Party identification is typically determined by the political party that an individual most commonly supports. Some researchers view party identification as "a form of social identity", in the same way that a person identifies with a religious or ethnic group. This identity develops early in a person's life mainly through family and social influences
