Terremoti naturali o artificiali? Lutti e sofferenza infinita. L'Italia è scossa da una sequenza insolita di sismi che mietono vittime ignare e causano danni incalcolabili. È in atto una guerra ambientale non dichiarata, sottoposta al segreto di Stato. Di mezzo c'è la mano armata di un'entità oscura che minaccia la vita nel Belpaese. Alzi la mano chi sa che il 13 dicembre 2007, addirittura dall'estero, la Costituzione tricolore, repubblicana ed antifascista, è stata di fatto congelata senza "colpo ferire". E che nientedimeno, al di sopra delle Forze dell'Ordine italiane (Carabinieri, Polizia, Guardia di Finanza) s'erger senza alcun controllo della Magistratura e del Parlamento tricolore, un altro organismo con diritto di vita, di morte e di distruzione su chiunque. Insomma, la democrazia in Italia è stata abolita. Così, dietro le quinte è entrato in scena un insospettabile sistema di potere che dirige l'esistenza nello Stivale a sovranità ormai azzerata. In questi tempi confusi, l'eccesso di informazione si traduce in difetto di sapere. Ma un giornalista italiano, libero e indipendente, ha fatto luce, prove alla mano, su questo mistero, nonostante

attentati e minacce di morte. Non più vittime. La sua esortazione è SU LA TESTA, prima che sia troppo tardi, prima che vada in onda il disastro finale.

Questo libro è nato in occasione d'un corso di cultura religiosa tenuto a professori universitari laici. Non è pertanto un'opera di erudizione e neppure un saggio di facile divulgazione. Vuole essere semplicemente una guida per chi intenda percorrere le tappe principali dell'apologetica cattolica. Le materie trattate sono numerose e diverse, alcune familiari all'autore per altre ha consultato gli studiosi più competenti facendo del suo meglio per esporre le conclusioni che gli sembravano convenire al suo intento. La speranza è di aver fatto un'opera utile a due categorie di persone: prima a coloro che cercano e non disperano di trovare una risposta alle questioni supreme; poi a quelli che per dovere o per desiderio di servire vogliono aiutare gli altri presentando loro le verità essenziali. Il semplice discorso fornirà a tutti le basi resistenti di una dottrina che soddisfi lo spirito, pacifichi l'anima e rischiarì l'azione.

Sicilian proverbs are a pathway into the reality of Sicilian culture over the centuries. They are the voices of its people that ring true from generation to generation. The proverbs are an important sub-text of their conversation. Every segment of society is represented by the truth of the proverbs. The majority of the Sicilian proverbs in this collection were

recorded by Dr. Giuseppe Pitrè (1841-1916) in four volumes of his twenty-five volume library of Sicilian folklore as he traveled the island tending to the sick in all walks of life. Tending the sick was Dr. Pitrè's occupation, Sicilian folklore was Pitrè's literary life. In his literary life he also edited *The Archivio delle Traditioni Popolari* with his close friend and associate Salomone Marino. This English translation of his work makes the proverbs of the entire four volumes available to the English speaking world for the first time. The translation also includes about fifteen hundred Sicilian proverbs drawn from other collections.

This study explores how the themes of the *disperata* genre - including hopelessness, death, suicide, doomed love, collective trauma, and damnations - are creatively adopted by several generations of poets in Italy and France, to establish a tradition that at times merges with, and at times subverts, Petrarchism.

Most people outside Italy know Pier Paolo Pasolini for his films, many of which began as literary works—*Arabian Nights*, *The Gospel According to Matthew*, *The Decameron*, and *The Canterbury Tales* among them. What most people are not aware of is that he was primarily a poet, publishing nineteen books of poems during his lifetime, as well as a visual artist, novelist, playwright, and journalist. Half a dozen of these books have been excerpted and published in English over the years, but even if one were to read all of those, the wide range of poetic styles and subjects that occupied Pasolini during his lifetime would still elude the English-language reader.

For the first time, Anglophones will now be able to discover the many facets of this singular poet. Avoiding the tactics of the slim, idiosyncratic, and aesthetically or politically motivated volumes currently available in English, Stephen Sartarelli has chosen poems from every period of Pasolini's poetic oeuvre. In doing so, he gives English-language readers a more complete picture of the poet, whose verse ranged from short lyrics to longer poems and extended sequences, and whose themes ran not only to the moral, spiritual, and social spheres but also to the aesthetic and sexual, for which he is most known in the United States today. This volume shows how central poetry was to Pasolini, no matter what else he was doing in his creative life, and how poetry informed all of his work from the visual arts to his political essays to his films. Pier Paolo Pasolini was "a poet of the cinema," as James Ivory says in the book's foreword, who "left a trove of words on paper that can live on as the fast-deteriorating images he created on celluloid cannot." This generous selection of poems will be welcomed by poetry lovers and film buffs alike and will be an event in American letters.
