warfare over the past decade has taken place away from the battlefields of Afghanistan and Iraq, in the corners of the world where large armies can't go. Mark Mazzetti tracks an astonishing cast of characters on the ground in the shadow war, from a CIA officer dropped into the tribal areas to learn the hard way how the spy games in Pakistan are played to the chain-smoking Pentagon official running an off-the-books

Other times, including the failed operations disclosed here for the first time, they have not. For better or worse, their struggles will define American national security in the years to come.
